

-----Download our App section -----

Name: Ankit Gupta

Designation: Frontend Developer Intern Employee

ID: FD202307004

Date: 30-01-2025

Project name: Tree Housing Publication

Component: DownloadApp

1.Template Structure

```
<template>
  <div class="cont-downloadBox">
    <div class="first-box">
      <h1 class="main-text">Download our mobile app, start learning today</h1>
      <div class="store-buttons">
        
        
      </div>
    </div>
    <div class="second-box">
      
    </div>
  </div>
</template>
```

Explanation

- We divide the part of into two parts and set the images at their positions
- Images are inserted here using src required method

2. Script Section

```
<script>
export default {
  name: 'DownloadApp',
}
</script>
```

Explanation

- Defines the component name as "DownloadApp" for better debugging and modularity.

3. Styling Code :

```
.cont-downloadBox {
  background-color: #052A63;
  color: #fff;
  display: flex;
}

.first-box {
  width: 50%;
}

.main-text {
  padding: 50px;
  max-width: 600px;
  font-family: 'Inter', sans-serif;
  font-size: 42px;
  font-weight: 500;
  line-height: 50.83px;
  text-align: left;
  text-underline-position: from-font;
  text-decoration-skip-ink: none;
```

```
}
```

```
.store-buttons {  
  display: flex;  
  flex-direction: row;  
  padding-left: 50px;  
  gap: 20px;  
}
```

```
.imageStore {  
  height: auto;  
  width: 25%;  
  max-width: 200px;  
}
```

```
.second-box .mobile-view {  
  height: 275px;  
  width: 300px;  
}
```

Explanation

- Cont-downloading : Set the background color
- Text : Set the size , font, and weight of text
- Images : display in flex with their height and weight

4. Responsive Styling :

```
@media (max-width: 1170px) {  
  .main-text {  
    font-size: 35px;  
    line-height: 45px;  
  }  
}
```

```
}
```

```
@media (max-width: 768px) {
```

```
  .cont-downloadBox {
```

```
    display: block;
```

```
    text-align: center;
```

```
  }
```

```
.first-box {
```

```
  width: 100%;
```

```
}
```

```
.main-text {
```

```
  max-width: 100%;
```

```
  padding: 20px;
```

```
  font-size: 35px;
```

```
  line-height: 40px;
```

```
}
```

```
.store-buttons {
```

```
  gap: 15px;
```

```
  padding-left: 100px;
```

```
}
```

```
.imageStore {
```

```
  max-width: 250px;
```

```
}
```

```
}
```

```
@media (max-width: 690px) {
```

```
  .imageStore {
```

```
    height: auto;
```

```

width: 30vw;
max-width: 100px;
}
}

@media (max-width: 470px) {
  .store-buttons {
    flex-direction: column;
    gap: 15px;
    padding-left: 100px;
  }
  .imageStore {
    height: auto;
    width: 45vw;
    max-width: 100px;
  }
}

.main-text {
  max-width: 100%;
  padding: 20px;
  font-size: 30px;
  line-height: 30px;
  text-align: center;
}
}

```

Explanation :

- Here we provide responsiveness in our section by using media query for all devices.
